Pilot Recalls Seeing Direct

Dick Martin Tells of Odd Aircraft

Nine years ago, "flying saucers" emerged on Wednesday and soon 
no less than 50 Pacific-brand photographers of the tape ever went andMissouri 
experienced pilot of more than 1,000 hours in flying time.

Martin, who is recovering from an hip surgery, received in a 
 automobile accident came to Portland over the weekend to spend the honeymoon. 
He saw the "flying saucers" over the area, but while lying in bed, 
he heard the Oregonian. 

"I realized at once what I was seeing," Martin said. until I noticed 
all the babble about the paper. I guess I'll go to their strange shapes 
while and finally concluded that these were the Navy's new F-89s, flying 
"flying tinfoil," which are thin and round, not disk-shaped, as first reported.

O NLY ONE SUCH B IULD

The Navy and the manufacturer have announced officially that one 
such machine was built and that it never left Compton.

"These planes were flying high above 20,000 feet and fairly far, 
and they were used by 200 or 400, always in pairs, always in formation, and 
were seen going north, south, east, west, or southwest. They were 
not moving, bobbing, or formation. Many 
and the number of these "flying saucers" could not be distinguished. 
They appeared almost round, "flying tinfoil," to look like a picture 
the Navy's flying tinfoil," Martin said.

Dr. Martin, who plans to spend the next year at the 
Aerospace Institute of California, is planning a flight to San 
Palm Springs.

TWO DESCRIPTIONS ELICITED

Martin's description of the mysterious aerial objects agrees with 
that of Kenneth Arnold, Boise, Idaho, business man who first reported 
over the State and Washington, except that Arnold, who is often an 
and 1,000 miles distant.

"The other reports came yesterday morning. He saw them over the 
City's hospital" Arnold said. The news spread like wildfire. 
went on a rapid speed and they were assigned to Miss the Hills. 
The Navy's flying tinfoil," Martin said.

Dr. Martin said the "flying saucers" were not the same as 
the ones reported by Arnold, but there were three of them near 
the mountains last Tuesday night that were the same as the ones 
reported by Arnold. 

The Navy has been flying "flying tinfoil," which are thin and round, not disk-shaped, as first reported.

A man who saw the original report said that Arnold, a telephone 
man, said he saw four "flying saucers" flying over the mountains. 
He was working in the northwest of Mineral, Idaho. At the time. 

M.
Washington I realized that the articles that I saw were probably the same thing I was still reluctant to mention this to anyone thinking that they would probably have that I was crazy. After some time I mentioned the incident to the editor of the "Oregonian," a Portland, Oregon newspaper. At this time I was in Portland for the remainder of the summer, the results of the conversation with the editor of the paper is put forth in the accompanying newspaper article.

I fully realize that this is a broad statement in view of the fact that there has been so much publicity regarding writing in various newspapers of the country. I am of sound mind in every respect and I am firmly convinced that the articles I saw are actually some sort of machine although I cannot say from where they came or to where they were going. I say what I have said with no idea or publicity or personal gain.
SUBJECT: Investigation of "Flying Discs"

TO: Special Agent in Charge, FBI, U. S. Dept. of Justice, Suite 25-7, 720 Folsom Street, San Francisco, California.

RE: Enclosed herewith is information copy of MOIC and newspaper clipping re: subject.

WILLIAM H. GRAY
Deputy AD for DRV Corps

Newspaper clipping Vol. 47
AUG 7 1947
from the Oregon Leader, continued.

MORE LATER

Several days flight of objects over Portland were reported Friday afternoon. Tony Van, 3342 SW Racquet Avenue, said he saw three fly east across the Willamette River near the Rose Island bridge about 2:30. The objects did not appear right, he said, and were traveling so fast they disappeared in the west, they were not seen in the east. He, two to three minutes. He said they resembled metallic disks glinting in the sunlight. A man and neighbor saw a single disk-like object flying next to away and very high.

At 4:30 p.m., Mrs. Lawrence J. Haydock, 1124 21st Avenue, reported a similar sight. A disk-like object flying around in the air over the Sandy district. She said it seemed to be moving slowly.

PAPER RECOVERED

Arthur D. Hoyer, 1232 NE 59th Avenue, said he sighted two white or silver discs flying southeast high over Portland a few minutes before 5 p.m. One reported another, heading northeast over his home at 5:30 p.m.

J. T. Giger, Airport, reported that four discs flew past North Jefferson around 11 a.m. while he was driving near Redmond.

A. M. Cross, 2001 NE 25th Avenue, recovered three more City Golf course papers at about 6 a.m. while he was hunting near Beaverton. He reported seeing four discs flying down 10 miles away.

SILVERED DISCS, DROPPED BY PLANE

PORTLAND (AP) - A lawyer, through casual inquiry, learned the mystery of the many silvered discs being dropped out of a flight of airplanes in southern Oregon.

Henry L. Perry, 5422 NE Holgate, who discovered a silvered disc in the sewer of his home, said he had been investigación the matter.

The discs are said to have been dropped by a plane that was flying over the area.
AIRCRAFT CREW CONFIRMS REPORTS OF FLOATING DISK "SIGHTED SPOTTED":

...Circumstantial reports of flying disks in the sky Friday came from the crew of a United Airlines plane over Boise, Idaho, and a coast guardman near Seattle, as well as from Portland area police and citizens.

J. H. Smith, captain of the airliner, told United Press that he sighted five "something" which were "flat, and smooth on the bottom and rough appearing on top." The objects appeared against the sun, shortly after the plane took off at 8:04 p.m. and said they were not seen clearly as they were at a tremendous height. They moved in a westerly direction for about 35 miles. Finally, the objects disappeared and they were unable to tell whether they were a new district called... NOT AIRCRAFT.

We can't say whether they were cancer-like oval or anything else." The captain said, "but whatever they were, they were not another aircraft or were any kind of clouds."

John E. Ringle, a coast guardman, said he had been to United Press that he snapped a picture from the right porch of his home which showed a white "cancer" flying over the north end of Lake Washington.

Bell Aeros Pictures, New York City, said a 7½-inch print of the photograph showed two tiny dots, one of which was a tail in the print.

"Don Metcalfe," 19 years old, amateur pilot, reported several objects "like spinning disks" in the sky Friday. He said several witnesses, including a woman pilot, noticed them. He also saw several other objects "like lighted crosses." He heard a "low hum" in the sound.

OTHERS DOUBTFUL.

R. E. Cole, Portland这款 passenger, was a little doubtful in the report, but said from the wing of his plane, the sky appeared clear. He said he saw nothing "suspicious."

The only known military airplanes in the air at the time of the report were 23 B-29 bombers near Astoria. Dr. J. G. Hunsinger, a Portland psychiatrist, said the report was not "skeptical.

Despite all the reports, a least two persons remained unconvinced of the existence of the disks. All newspapers in the city carried the story without comment. In the sky above a private airplane, near the coast guardmen's helicopter, there was no evidence of anything. It was "rocket-like" like a bullet or a high-flying object, perhaps a satellite.
This agent interviewed W. H. Lacey and D. E. Ellis, both policemen of the Portland City Police Department and both possess private pilots licenses. Both officers advised that upon hearing the radio alert, they saw three flat round discs, having a white color to them. These discs were, according to these officers, flying at a terrific speed in a southerly direction away from Portland. They described them as flying in a straight line formation, the last disc fluttering very rapidly in a side way arc. They further advised the discs were equally spaced and kept in formation. Both officers stated the discs altitude at 40,000 feet. They saw no evidence of any motoring powers and vapor trails or smoke trails. Both officers stated the discs were traveling so fast, they were out of sight before any detailed observation could be made, or any sound could be heard.

AGENT'S NOTE: Full informants mentioned herein are known to this agent as very dependable and trustworthy officers, not being afflicted with hallucinations. The weather in the Portland area at this time was clear with little or no cloud formations being visible from the ground. Ground temperature at this time was 82 degrees Fahrenheit.

FROM THE "OREGON JOURNAL" - 8 JULY 1947 - PORTLAND, OR.

"PROWL CARS SPOT DISKS IN SKY HERE"

Whatever shadowy figures are seen dailie in the sky. Dr. R. W. H. W. De Wet of the Portland area police and deputy sheriff says he photographed the objects Friday, numerous private citizens, the crew of a U.S. Air Force plane over Boise, Idaho, and a coastguardon who claims to have photographed one near Seattle, are all wrong.

In Portland the alert was sounded over police radio at 11:00 p.m. Friday, after the East Side police received a score of calls that the disks were overhead. Within seconds, two prowl cars reported spotting the mystery craft.

PLANET BESID VOICE LACKING

First to report in were Portland policemen E. M. and Robert Hills in Car No. 52. They spotted near Lake Park both World War II veterans and civilian pilots. They sighted three of the objects within 30 seconds, traveling at great height and speed over the park. They reported they heard a strange noise, but saw flashes. The objects seemed erratic and changed direction of flight. The pilots agreed that without knowledge of the size of the objects it would be impossible to judge their weight. But Pilot Petronel M. Peterson in Car No. 52 stopped at 57th Avenue and Foster Road to look between trees where the disks were reported. The disks called looking down out of the sun (but nothing) but in 93 seconds later observed one coming out of the west and heading southwest at the rate it seemed to travel, an average rate of three feet per second.

OBJECTS UNIDENTIFIED

Army engineers and members of the harbor police at the foot of 7th Irving street stepped out when they heard the all-car alert. Capt. K. D. Fehm, Harbor Pilot, A. L. Auston, and Police Lt. C. J. Hoff all saw the objects, and said they appeared to be going south high over the Globe Hill at half-disk speed. Capt. Fehm said the disks kept the 40-degree angle without difficulty.

Members of the harbor patrol at the foot of 7th Irving street stepped out when they heard the all-car alert. Capt. K. D. Fehm, Harbor Pilot, A. L. Auston, and Police Lt. C. J. Hoff all saw the objects, and said they appeared to be going south high over the Globe Hill at half-disk speed. Capt. Fehm said the disks kept the 40-degree angle without difficulty.

There was a plane in the air at the time, but the disks were not plane-like.
UNIDENTIFIABLE OBJECTS,
WILLIAMS FIELD, CHANDLER
ARIZONA

JULY 1947

MEMORANDUM FOR THE OFFICER IN CHARGE:

On 8 July 1947, this Agent obtained pictures of unidentifiable objects, (Exhibits 1 and 2) from the managing editor of the Arizona Republic newspaper. The pictures were taken by Mr. William Rhoades, 1313 N. 11th St., Phoenix, Arizona, at sunrise on 7 July 1947. The subject objects flew at unceivable speeds, making three circles in the vicinity of Mr. Rhoades' home. The pictures were taken with a box camera, size 520. The photograph (Exhibit 1) was taken as the object passed in front of Mr. Rhoades, and Exhibit 2 as the object turned towards Mr. Rhoades. The height of the object was estimated at 4000 feet.

AGENT'S NOTES: See Exhibits 1 and 2, photographs of unidentifiable objects, enlarged approximately 20 times. No further reports have been received by this Office of objects seen by military personnel.
MEMORANDUM FOR THE OFFICER IN CHARGE

1. At 10:00 A.M. on July 2, 1947, a radio alert was received via the Portland City Police radio, advising all patrolmen listeners that some fast-flying objects were in the air over Portland and vicinity. Upon contacting the dispatcher, this agent was advised that Kenneth A. McDowell, Patrolman, Portland City Police Department, residing at 616 S. E. 8th Street, Portland, Oregon, on duty at Frisco, 41st, 31st Avenue, and 21st Street, had called advising the dispatcher of the flying objects.

2. This agent interviewed Officer McDowell who stated that at approximately 9:00 A.M. on July 2, he was on duty at Frisco, 41st, and was in the parking-lot bank of the Police station feeding the pigeons. At this time, he observed the pigeons became very excited over something and fluttered over the all streets. Officer McDowell stated he was looking around to see what had disturbed them, he saw five large discs in the air over East Portland, two discs flying south, and three flying in an easterly direction. Officer McDowell stated he could determine no color in the disc, but advised the were spinning in an up and down motion. He was unable to determine the speed or altitude of these objects. After he left the parking lot, any detailed observations could not be made. Officer McDowell advised the police radio immediately broadcast the sighting. Officer McDowell advised the way subordination of any toxic, or toxic, observer, and could give the description of them, but could not give the description of the objects.

3. This agent interviewed Patrolman James Cross, Oregon Portland City Police, Station 3, 31st Avenue and 31st Street, Portland, Oregon, in the radio alcove, he was in the patrol car, at 9:00 A.M. on July 2, at a traffic stop in the area of North Portland, jurisdiction of Officer McDowell. Upon advising the police radio of the object being observed, he advised he had not seen such objects in the past. Officer McDowell was unable to give any further description. He could not judge the objects speed in altitude. No sound was made by the object.

4. This agent interviewed Captain R. Patterson, Patrolman, Portland, City Police Department, and Residing at the Southeast 31st Avenue and 31st Street. Officer Patterson advised he was a former Air Corps' pilot during World War II, that the time, the radio alert sounded, he was at Southeast 31st Avenue and 31st Street, Portland, and upon getting out of his car to see one disc flying in a southerly direction over Portland, Patterson advised this disc was unusual in color, "It was a vapor trail or smoke trail, and was traveling at a very high speed, faster than he had ever seen any disc flying at or before this time. Further, advised, though not knowing the exact altitude, the disc did not appear to determine the altitude and wind at the altitude of disc, and could not give any further description as to the disc.
Pilot Recalls Seeing Discs
Dick Rankin Tells Of Odd Aircraft

More reports of "flying flappjacks" turned up Wednesday, one from no less than Dick Rankin, brother of the late Tex Rankin, and himself an experienced pilot of more than 7000 hours' flying time.

Rankin, who is recovering from an old back injury received in an automobile accident, came to Portland over the week end to spend the summer. He saw the "Silver rudderers" over Bakersfield, Calif., June 23, while lying on the lawn sun bathing, he told the Oregonian.

"I hesitated to say much about them," Rankin said, "until I noticed all the hullabaloo in the papers. I puzzled over their strange shape for a while and finally concluded that they were the navy's nee XF5U-1 flying flappjacks, which are thin and round, with twin propellers and stubby tail."

Only One XF5U-1 Built

The navy and the manufacturer have announced officially that only one such machine was built and that it never left Connecticut.

These planes were flying high, maybe 5000 feet, and fairly fast about 300 or 400 miles an hour. I first counted ten of them in formation, going north. About 2:15 P.M., they returned on the reverse course, headed south. But there were only seven in the formation.

They were not weaving or bobbing in formation. I couldn't make out the number or location of their propellers and couldn't distinguish any wings or tails. They appeared almost round. They looked like pictures of the navy's flying flappjack," Rankin said.

Rankin, who plans to spend the summer here at 834 N. E. Simpson street, is now able to resume a little flying for fun, but not commercially, he said. He now operates a string of tennis courts, spending his winters at Palm Springs.

Dear [Redacted]

I wish to acknowledge receipt of your letter post-marked July 10, 1947, together with its enclosure.

Inasmuch as the information which you furnished is of interest to the War Department I have taken the liberty of furnishing it to that agency for their consideration.

Sincerely yours,

[Redacted]

John Edgar Hoover
Director
Reference is made to Bureau Bulletin No. 42, Series 1947, dated July 30, 1947, Section (B), which advises that all reports concerning flying discs should be investigated by field offices.

Prior to the receipt of these instructions, two instances were called to the attention of this office concerning flying discs. One report was received July 7, 1947, the details of which are set forth in Milwaukee letter to the Bureau dated July 8, 1947, entitled, "Flying Discs or Saucers, Miscellaneous, Telephone Call from Mr. Fletcher at the Bureau at 8:30 a.m., 7-7-47." No investigation was conducted concerning this report.

The second report was received by this office at 1:20 p.m. July 11, 1947, from [redacted] who is in charge of the Civil Air Patrol of Wisconsin, an auxiliary of the Army Air Forces. On that occasion [redacted], calling from Black River Falls, Wisconsin, telephonically advised this office that an object in the shape of a disc, nineteen inches in diameter had been found July 10, 1947, by one city electrician on the Jackson County fairgrounds, near Black River Falls, Wisconsin, about 3:30 p.m. The disc might be made of a substance such as cardboard covered by a silver airplane dope material. The contraption has a small wooden tail like a rudder in the back and inside of the disc is what appears to be an RCA photo-electric cell or tube. Also inside the disc is a little electric motor with a shaft running to the center of the disc. At one end of the shaft is a very small propeller. In his opinion that contraption might possibly have been made by some juvenile. [redacted] stated that he desired to return the contraption to Milwaukee and eventually turn it over to the Army Air Forces, but that the finder, apparently wanted to get some publicity on his find and wanted it returned to him.

This information was telephonically called to the attention of Assistant Director D. M. LADD of the Bureau on July 11, 1947.

No further investigation was conducted in this matter.
Director
8-12-47

The above constitutes the only two instances in which this office was contacted concerning flying discs. Unless contrary instructions are received from the Bureau, this office does not contemplate taking any further action in connection with the above two cases, but will fully investigate all future reports concerning flying discs.

THE FLYING ROLL

San Diego, California. July 8, 1947 -

(For your Information) - A MEMORANDUM OF IMPORTANCE -

THIS MEMORANDUM is respectfully addressed to certain scientists of distinction to important aeronautical and military authorities, and to a number of public officials and to a few publications.

The writer has little expectation that anything of import will be accomplished by this gesture. The mere fact that the data herein were obtained by so-called supernormal means is probably sufficient to insure its disregard by nearly all the persons addressed; nevertheless it seems a public duty to make it available. (The present writer has several university degrees and was formerly a university department head).

A very serious situation may develop at any time with regard to the "flying saucers." If one of these should be attacked, the attacking plane will almost certainly be destroyed. In the public mind this might create near panic and international suspicion. The principal data concerning these craft is now at hand and must be offered, no matter how fantastic and unintelligible it may seem to minds not previously instructed in thinking of this type.

1. Part of the disks carry crews, others are under remote control.
2. Their mission is peaceful. The visitors contemplate settling on this plane.
3. These visitors are human-like but much larger in size.
4. They are NOT extraneous earth people, but come from their own world.
5. They do NOT come from any "planet" as we use the word, but from an other world which interpenetrates with our own and is not perceptible to us.
6. The bodies of the visitors, and the craft also, are automatically "materialize on entering the vibratory rate of our dense matter." (Op. "apports.")
7. The disks possess a type of radiant energy, or a ray, which will easily disintegrate any attacking ship. They reenter the other ship at will, and so simply disappear from our vision, without trace.
8. The region from which they come is NOT the "astral plane", but corresponds to the Lokas or Talas. Students of esoteric matters will understand these terms.
9. They probably cannot be reached by radio, but probably can be by radar, if a signal system can be devised for that apparatus.

We give information and warning, and can do no more. Let the newcomers be treated with every kindness. Unless the disks are within a, a situation develops with which our culture and science are incapable of handling. A heavy responsibility rests upon the for in authority who are able to understand this matter.

San Diego, California.

Addendum: The Lokas are oval shape, fluted lengthwise, or oval with a heat-resisting metal or alloy not yet known. The front of each contains the controls; the middle portion of the body is laboratory; the rear contains armament, which consists essentially of a powerful ray energy apparatus, perhaps a ray generator, a solid-matter..
Re Bureau Bulletin No. 42, dated July 30, 1947, Series 1947, wherein information is set forth pertaining to flying discs.

There is enclosed with this letter a newspaper clipping from the "Norfolk Ledger-Dispatch", dated July 9, 1947. The photograph appearing on this clipping is alleged to represent a flying disc which was observed by BILLY TURRENTINE, a Norfolk school boy, who was successful in photographing the object with his small camera.

BILLY was interviewed on August 8, 1947 by Special Agent (A) [redacted] at which time BILLY informed that the original negative was given by him to a Mr. BROWN of the Photo Craftsmen Service, who in turn furnished the negative to the International News Service. BILLY advised that he has an agreement with Mr. BROWN whereby the latter will share equally in any profits derived from the use of the negative by commercial firms or newspapers. As of August 8, 1947 BILLY has not received any remuneration for the use of this negative.

He informed that he was sitting on the front porch of his apartment which is located on the third floor at 410 West 14th Street, Norfolk, Virginia, around noon time on July 8, 1947. He had read numerous newspaper articles pertaining to flying discs and decided to sit on his front porch in the hopes of seeing one and attempting to photograph it. On July 8, 1947 BILLY observed a large, black object moving rapidly through space proceeding from the southwest to a northeast direction. He said the black object was followed by two smaller objects which also proceeded in the same direction. BILLY explained that the objects were moving at a very fast speed which appeared to him to be much faster than the speed of an airplane, and further, that the objects appeared to be extremely high. He said that they were much higher than the average plane travels in the City of Norfolk and appeared to be above the clouds, and that a white mist followed each of the three objects. BILLY was unable to state what the black objects represented, but admitted that they could have been large balloons. He indicated that he has observed small, toy balloons flying through the air, but that definitely these were not the toy type balloons. He said that when he first observed the objects they were at such a great distance from him that it was not necessary that he raise his head in order to see them from his porch on the third floor of the apartment building. He immediately turned around to obtain...
Letter to Director, FBI
Re: FLYING DISCS
August 8, 1947

his camera and estimated it took him approximately twenty to thirty seconds, at which time the discs were almost directly over his apartment and it was necessary that he stoop and look up almost perpendicular in order to obtain the photograph, which accounts for the porch railing being shown in the newspaper clipping. BILLY pointed out that the day on which he took the picture, the weather was hazy and somewhat cloudy and there was a slight breeze blowing from the southwest in the general direction of the northeast, which is the same direction traveled by the black image which he photographed.

Inasmuch as the Army authorities in the Tidewater Area of Virginia are cognizant of the above information, no further investigation will be conducted by this office in this matter.

Enclosure.

Flying Disc 'Bigger Than Automobile' Photographed By Youth Who Is Amazed Because No One Else Saw It

By GEORGE HERBERT

The flying disc was lots bigger than an automobile and saw 12-year-old Bill Earnest of 410 West Fourteenth Street, doesn't understand why almost everybody in Norfolk didn't see it.

In fact, when he came to the Ledger-Dispatch with a photograph he had taken of the object, he wanted to know why the newspapers hadn't already taken a picture of it. "I thought your photographers were fast," he told a reporter.

A few seconds later didn't look anything like saucers.

Looked Like Football

The boy stuck his football comparison, explaining that the object was sort of rounded, more oval than disc-like, and that though it wobbled in its northeastern flight it was traveling very rapidly, about 60 miles an hour.

He guessed that the altitude of the thing was about 5,000 feet, just below the clouds. In color it was "gray, almost black," and looked like a "burned crisp," or maybe a rock or stone. The edges glittered, he said, and seemed to be trailing dust. Neither it nor the two which followed made any sound.

Bill said he wasn't very surprised when he saw the object, but "almost killed myself" getting shots of it with his camera, set at 1/100th of a second.

He called his 16-year-old sister, Frances, to come and look, but apparently she didn't believe him.

As the "flying football" passed over, Bill said he took three shots of it, but when he hurriedly developed the film, after legging it to Olden Road for a vital of developer, only one negative came out well enough for reproduction.

He showed a reporter a contact print he had made himself, and the picture reproduced here is an enlargement made by Photo Craftsmen. In the foreground of young Earnest's picture is a porch rail of his home.

NORFOLK BOY AND PHOTO OF DISC—Bill Earnest, 15, tells Ledger-Dispatch reporter George Herbert (left) of the "luck circumstances which enabled him to take the photograph at a right of a flying disc. However, the boy said the object pictured he looked and moved more like a football, being rounded and oval, rather than disc-like. Bill took this picture from the porch of his home at 410 West Fourteenth Street between 11 o'clock and noon Tuesday using an old camera, with the shutter set at 1/100th of a second. Bill said the "flying football" shown here was followed by two others once, all moving at about 60 miles an hour and he guessed they were about 5,000 feet high, just below the clouds. The photograph reproduced here is an enlargement made by Photo Craftsmen. The photo of some of the children possibly could be the flying disc.

DIRECTOR AND SACS SEATTLE AND SAN FRANCISCO  U R G E N T

FLYING DISCS, SM DASH X.  RE TELEPHONE CALL FROM MR. LADD, ONE PM TODAY REQUESTING TELETYPICAL SUMMARY CONCERNING NEWSPAPER REPORTS OF RECENT REPORTED FLYING DISCS IN PORTLAND AREA AND A REPORTED CONFERENCE OF ARMY OFFICIALS IN PORTLAND CONCERNING FLYING DISCS.  

The Oregonian, advised that a captain William L. Davidson and Lt. Frank M. Brown of Fourth AAF Headquarters at San Francisco were in Portland July twentyseven last and interviewed an experienced pilot, who had reported June fourteen last seeing a formation of ten flying discs over Bakersfield, Calif. According to they had also interviewed following four experienced pilots who were among first who reported seeing discs - 

To ascertain the purpose of the interviews contacted major general timing of Wright Field, Ohio by phone at Albuquerque, NJ, and from him gained the impression that the AAF instituted this investigation to wash out the disc reports, since they are definitely not of AAF Origin. On Friday, August first, the plane in which AAF investigators, Capt. Davidson and Lt. Brown were riding, crashed at Kelso, Wash. And both
WERE KILLED. THE WRECKAGE WAS SCREENED BY AAF INTELLIGENCE FROM MCCHORD FIELD. THE TACOMA NEWS TRIBUNE AND THROUGH THE UNITED PRESS PUT OUT A STORY THE PLANE WAS CARRYING PARTS OF A DISC WHICH HAD STRUCK A BOAT OWNED BY HAROLD DAHL AND FRED CRISMAN, TACOMA, WN. ADVISED THAT TODAY'S ISSUE OF THE OREGONIAN CARRIES A UP STORY STATING THAT DAHL DENIES SAYING THE METAL FRAGMENTS HE FURNISHED WERE FROM A DISC, AND ANALYSIS OF THE FRAGMENTS SHOWS THEM TO BE FROM A TACOMA SLAG MILL. NO AAF INTELLIGENCE PERSONNEL AVAILABLE PORTLAND. NO RECENT SUBSTANTIVE REPORTS OF FLYING DISCS IN THE PORTLAND AREA. SEATTLE VERIFY AT MCCHORD FIELD AND SAN FRANCISCO VERIFY AT AAF HDQRTS. SF, SUBMITTING TELTYPE SUMMARIES TO THE BUREAU. NO FURTHER INVESTIGATION PORTLAND.

CC Mr. Ladd.
SUBJECT: "FtLING SAUCERS"

Special Agent [redacted] of the Liaison Section contacted Lieutenant Colonel [redacted], Army Air Forces Intelligence, inquiring about an article which appeared in the West Coast newspapers recently stating in substance that an airplane carrying recovered flying saucers crashed in route from Portland, Oregon, to Los Angeles, California.

[redacted] advised [redacted] that the only information that has been received by Headquarters of the Army Air Forces is that a CIC Agent of the 4th Air Forces Headquarters, Hamilton Field, San Francisco, was killed in an airplane crash. The Headquarters of the Air Forces have been advised that he was on a top secret mission. [redacted] indicated that he was under the impression that the CIC Agent was either on route to or from an interview with [redacted] who is one of the individuals who first saw one of the flying saucers.

RECORDED [redacted] stated that the Air Forces have no additional information and will receive none until the report is received from the 4th Air Force. [redacted] suggested that the San Francisco Field Office contact Colonel [redacted], Headquarters 4th Air Force, Hamilton Field, San Francisco, who undoubtedly would be able to furnish the details regarding this matter which are at this time unknown by the Headquarters of the Air Forces. [redacted] pointed out to [redacted], however, that it was his belief that no flying saucers have been recovered but that it was merely an attempt to re-interview an individual who previously had reported seeing one of the flying saucers.

Attn.
Federal Bureau of Investigation
Gentlemen:

Recently I have heard and read about reports of disc-shaped aircraft or whatever they are, in our western regions. They reminded me of a nearly forgotten incident in Germany, after the war. I report this to you because I feel this may be of international scope.

My buddy and I went on pass to see a friend of his. One evening the three of us were driving along some back roads when I sighted a strange looking object in the sky from eight to ten miles to our front and approximately 5,000 feet high.

I immediately stopped the jeep for a better look. The object rapidly came toward us, descending slowly. About a mile away it stopped its horizontal motion but continued a slow oscillating descent, similar to a descending parachute. Then suddenly it dropped in a spiral motion.

Immediately I drove over to where it had dropped. It took almost five minutes to reach the place but we saw nothing. After ten minutes of cruising around the area it became too dark to see so we went back to town.

I am not sure my companions saw this; it happened so quickly it could easily have been missed, but I described what I had seen so vividly that they were as excited as I was. My first impression was that it was a cloud but it was traveling at right angles to the wind.

The location of this incident was approximately 20 miles north-west of Habberbishopshiem. If necessary, I will swear to the authenticity of this and to the shape of the object.

Sincerely Yours,
To: COMMUNICATIONS SECTION.

UNIDENTIFIED OBJECT
WILLIAMS FIELD, CHANDLER, ARIZONA

7 July 1947

MEMORANDUM FOR THE OFFICER IN CHARGE

1. On 1 July 1947, Lt William C. McCinty, USN, 19500, P-60
   Student, Williams Field, Chandler, Arizona, was interviewed by
   this Agent, and stated in substance: That on 30 June 1947, at about
   0910, WST, he was flying at 25,000 feet over Grand Canyon, Arizona, in
   a P-60 type aircraft. He stated that he was heading south towards Williams
   Field, Arizona, when he saw two round objects going at inconceivable
   speeds, straight down. He further stated that his reactions were to
   turn away from the objects. He further stated that one of the unidenti-
   fiable objects followed the other second apart. He further stated
   that due to the speed of the objects, he could only see that they were
   circular, and that they were possible light gray in color. He further
   stated that it was his opinion that the objects were approximately
   eight feet in diameter. In conclusion, he stated that the objects
   would have probably hit the ground approximately twenty-five miles
   south of the South Rim of Grand Canyon, Arizona.

AGENT'S NOTE: Lt McCinty gave his permanent address as: N.A.U.T.C.,
Point Hug, Fort Huaseme, Calif.

2. On 1 July 1947, Captain Malcolm G. Armstrong, O-734168
   Instructor, Single Engine, Williams Field, Chandler, Arizona, was
   interviewed by this Agent and stated in substance: That his brother,
   Lt C. R. Armstrong, stationed at Hq, 10th AF, Brooks AFB, Texas
   had related to him that he saw a formation of unexplainable objects
   in the vicinity of Lake Head, Nev. Captain Armstrong further stated
   that his brother stated the objects were heading south, and were at
   approximately 10,000 feet altitude.

AGENT'S NOTE: Captain Armstrong could not give too much information
on the objects that his brother had seen. Lt. C. R. Armstrong can be
contacted at Hq, 10th AF, Brooks Field, Texas for further information.

JOHN K. ORR, Major, USA
SAC Weeks called from New Orleans on the matter discussed in the attached teletype. He wanted to know what policy the Bureau was following in connection with reports concerning these "flying discs" which were being received.

I told Mr. Weeks that, unless advised to the contrary, he should, in the particular case at hand, allow G-2 to handle and not take any jurisdiction for the FBI. He was told the Bureau would be interested in being kept advised of developments, and in copies of the photographs he said G-2 would make of the object found, but that he should not allow himself to be jockeyed into a position where investigative responsibility, if any were entailed, would fall on us. Mr. Weeks said he would so handle unless I called him back immediately with instructions for specific action.

As you will recall, I called you concerning the foregoing.
Office Memorandum - UNITED STATES GOVERNMENT

TO: DIRECTOR, FBI
FROM: SAC, EL PASO

DATE: July 22, 1947

SUBJECT: FLYING OBJECTS IN AIR

... has come to the resident agency at Santa Fe, New Mexico on several occasions to report that she has received information concerning flying objects passing through the air. Some of the reports that she has received concern light objects seen at night which have allegedly been followed by explosions. She advised that one of such objects was reported by ... who works near Canjilon, New Mexico. She claims that others were seen near Park View and Tierra Amarilla, New Mexico.

... called attention to clippings from various newspapers concerning "disc-like" objects seen in New Mexico and other parts of the country. ... claims to be a student of radio waves and ray forms, and contends that the above mentioned objects may be missiles similar to those appearing over Sweden some time ago.

... has discussed the above with officials of the Atomic Energy Commission, and has written the Secretary of War and other government officials concerning her theories. ... for the A.E.C., has advised that officials at Los Alamos consider unreliable and possibly not well balanced mentally. She has mentioned to agents of this office that she was struck by lightning when a child.

On July 15, ... came to the Santa Fe resident agency and ... advised that she had written to WALTER WINCHELL, promising him a story in connection with the "flying discs."

... The foregoing information is being submitted to the Bureau, inasmuch as ... has written to several government officials and Mr. WINCHELL.
Office Memorandum

UNITED STATES GOVERNMENT

TO : D. M. LADD
FROM : E. C. Fitch
SUBJECT: FLYING DISCS

DATE: 7/24/47

Reference is made to my memorandum to you in the above captioned matter dated July 10, 1947, indicating that Brigadier General George F. Schulgen of the Army Air Corps Intelligence had requested that the Bureau cooperate with the Army Air Corps Intelligence in connection with the above captioned matter. The Director noted on the referenced memorandum, "I would do it but before agreeing to it we must insist upon full access to discs recovered. For instance in the La. case the Army grabbed it and would not let us have it for cursory examination."

This is to advise that Special Agent has recontacted General Schulgen and advised him in connection with the Director's notation. General Schulgen indicated that he desired to assure Mr. Hoover of complete cooperation in this matter and stated that he would issue instructions to the field directing that all cooperation be furnished to the FBI and that all discs recovered be made available for the examination by the FBI Agents. General Schulgen pointed out that he will from time to time make the results of the studies of his scientists available to the Bureau for the assistance of the FBI Field Offices. General Schulgen indicated that there has been a decrease in the reported sightings of the discs which might be because of the fact that it has lost much of its publicity value. He indicated, however, that he believed it necessary to follow this matter through to determine as near as possible if discs were in fact seen and to determine their origin.

General Schulgen inquired of the method by which the Bureau would make the information obtained from the Bureau's inquiries, known to the Air Corps, in the Field as well as at the War Department level. Mr. pointed out to General Schulgen that the best procedure appeared to be through the regular established channels. It was pointed out to General Schulgen that the Bureau Field Offices maintain close liaison with the Intelligence Divisions of the various Armies as well as close liaison with the Intelligence Division of the War Department. General Schulgen indicated that he would be satisfied to receive information through this means.

General Schulgen indicated that he believed that there was a possibility that this entire matter might have been started by subversive individuals for the purpose of creating a mass hysteria. He suggested that the Bureau keep this in mind in any interviews conducted regarding reported sightings. General Schulgen stated that he would make available to the Bureau all information in the possession of the Air Corps regarding the sightings which were first-reported so that the Bureau could conduct some investigation regarding these individuals to ascertain their motives for reporting that they had observed flying discs. When General Schulgen makes the information available regarding these individuals, it will be promptly brought to your attention.

Dear [Name]:

RECEIVED

June 29-83894-35

I desire to acknowledge receipt of your letter dated July 14, 1947, and to express my appreciation to you for bringing this matter to my attention.

The information set forth in your letter has been carefully reviewed and is being maintained in this Bureau as a matter of record.

Sincerely yours,

John Edgar Hoover
Director

NOTE: has been a previous correspondent with the Bu file. No record could be located in the Crime Records Section indication that the correspondent might be a mental case.
Mr. J. Edgar Hoover, Chief, of the F.B.I.,
Washington, D.C.

Dear Sir,

Please forgive me for taking up your time with this item. It really is necessary. Yet, although everybody's tongue was wagging from the East and to the West coast, I couldn't resist putting my ear in.

**Flying Saucers in the Sky. Heading for the Milky Way. Funny? I don't know.**

We read and re-read. "Sky Disc Derby Open to All," "Calls "Saucers" Mr. of Vision," "Believe it or not, 27 States see those flying saucers," "Who saw them?"

"Find 'Disk' is weather kite" - "Disks called chunks of Mirage" - "Report new Red Planes resemble 'Flying Saucers'" - "Air-liner crew reports seeing 9 flying discs in 12 minutes" That's the way it went on, for days and days.

Please, don't remind me that this is a military problem. Soldiers fight the enemy out in the open and away from home if possible. The Federal Agents (the unheroes) fight the enemy under cover and in their home grounds. So, here I am.

These so-called saucers may be kites, but according to reports, these things didn't flutter or float, they sailed and kites don't sail, the strangest part is they all sailed in the same direction, from West to East.

Rewards were offered, no collectors. Planes chased them, none captured. They hit land, no finders. So, as long as the Military, Scientist and Civilians deny, be responsible for this. Were doed it lead to? An enemy. A little while back, it was mentioned somewhere that Russia had or has a contraption for their next war, getting sound (like a silent whistle for dogs) what it is, to do, to their enemy. I don't know. If a country was experimenting such a weapon, the brave people of the U.S. were not scared. They only informed the so-called enemy how successful the stunt was.

It could be an optical illusion, or, supposing some unwelcomed persons, plants a few well chosen words, here and there and left the rest to an confused mind. These innocent people reporting the phenomena.

What confuses me is, that when we became too curious and determined to find out what they really are, those things disappeared and we found substitutes, saucers. These things resembling description as near as possible to the real thing couldn't these things have been directed back home again like a homing pigeon?

To make short of this thing, is bad taste. It sort of reminds me of the boy tried WOLF. When the wolf really came. Twas sad. He was a nice boy. There should be law against such jokes or experiments. They should be condignly tried for treason, even, if the so-called joke seems humorous. We can't take any chances. At this age, Time is slow. Man, is it.

I had in mind that the floods were responsible for these disks (mirages) the rushing waters of the Mississippi, Missouri, Platte, Columbia and Ohio Rivers, then going from East to West, plus the Catskill in the Easterly North, The Blue Ridge in the East, and the Rocky Mountains in the West. Reflections, or whatever, there, went from West to East. Hence the disks I hope.

Recorded Respectfully Submitted,
July 20, 1947

Dear Sir,

Reading about Kenneth Arnold seeing those flying saucers. I got a brainstorm, maybe there is someone that is manufacturing a contraction that could be sent up by remote control and could be used against us.

Yours truly,

[Redacted]

RECORDED 43-83894-34
INDEXED Oct 25, 1947
At request of [Redacted] General George F. Schulgen, Chief of the Requirements Intelligence Branch of Army Air Corps Intelligence, Special Agent [Redacted] discussed the above captioned matter with him on July 9, 1947. General Schulgen indicated to [Redacted] that the Air Corps has taken the attitude that every effort must be undertaken in order to run down and ascertain whether or not the flying disks are a fact and, if so, to learn all about them. According to General Schulgen, the Air Corps Intelligence are utilizing all of their scientists in order to ascertain whether or not such a phenomenon could in fact occur. He stated that this research is being conducted with the thought that the flying objects might be a celestial phenomenon and with the view that they might be a foreign body mechanically devised and controlled.

General Schulgen also indicated to [Redacted] that all Air Corps installations have been alerted to run out each reported sighting to obtain all possible data to assist in this research project. In passing, General Schulgen stated that an Air Corps pilot who believed that he saw one of these objects was thoroughly interrogated by General Schulgen and scientists, as well as a psychologist, and the pilot was adamant in his claim that he saw a flying disk.

General Schulgen advised [Redacted] that the possibility exists that the first reported sightings of the so-called flying disks were fallacious and prompted by individuals seeking personal publicity, or were reported for political reasons. He stated that if this was so, subsequent sightings might be the result of a mass hysteria. He pointed out that the thought exists that the first reported sightings might have been by individuals of Communist sympathies with the view to causing hysteria and fear of a secret Russian weapon.

General Schulgen indicated to [Redacted] that he is desirous of having all the angles covered in this matter. He stated that reports of his scientists and findings of the various Air Corps installations will be available in his office. He advised that to complete the picture he desired the assistance of the Federal Bureau of Investigation in locating and questioning the individuals who first sighted the so-called flying disks in order to ascertain whether or not they are sincere in their statements that they saw these disks, or whether their statements were prompted by personal desire for publicity or political reasons. General Schulgen assured [Redacted] that there are no War Department or Navy Department research projects presently being conducted which could in any way be tied up with the flying disks. General Schulgen indicated to [Redacted] that if the Bureau would cooperate with him in this matter, he would offer all the facilities of his office as to results obtained in the effort to identify and run down this matter.

[Redacted] advised General Schulgen that his request would be made known to the Bureau and an answer made available to him as soon as possible.
Memorandum for Mr. Ladd

also discussed this matter with [redacted] of [redacted] indicated that it was his attitude that inasmuch as it has been established that the flying disks are not the result of any Army or Navy experiments, the matter is of interest to the FBI. He stated that he was of the opinion that the Bureau, if at all possible, should accede to General Schulgen's request.

SWR: [illegible]

ADDITIONAL

I would recommend that we advise the Army that the Bureau does not believe it should go into these investigations, it being noted that a great bulk of those alleged discs reported found have been pranks. It is not believed that the Bureau would accomplish anything by going into these investigations.

[Signature]

I think we should do this 7-15

I would do it but before evening & if we must insist upon full access to discs recovered. For instance in the incident the Army grabbed if it would not hold me back if for any examination.

AUG 26 1947 252
(B) FLYING DISCS -- The Bureau, at the request of the Army Air Forces Intelligence, has agreed to cooperate in the investigation of flying discs. The Air Forces have confidentially advised that it is possible to release three or more discs in odd numbers, attached together by a wire, from an airplane in high altitudes and that these discs would obtain tremendous speed in their descent and would descend to the earth in an arc. The Army Air Forces Intelligence has also indicated some concern that the reported sightings might have been made by subversive individuals for the purpose of creating a mass hysteria.

7-30-47
BUREAU BULLETIN NO. 42
Series 1947

You should investigate each instance which is brought to your attention of a sighting of a flying disc in order to ascertain whether or not it is a bona fide sighting, an imaginary one or a prank. You should also bear in mind that individuals might report seeing flying discs for various reasons. It is conceivable that an individual might be desirous of seeking personal publicity, causing hysteria, or playing a prank.

The Bureau should be notified immediately by teletype of all reported sightings and the results of your inquiries. In instances where the report appears to have merit, the teletype should be followed by a letter to the Bureau containing in detail the results of your inquiries. The Army Air Forces have assured the Bureau complete cooperating in these matters and in any instances where they fail to make information available to you or make the recovered discs available for your examination, it should promptly be brought to the attention of the Bureau.

Any information you develop in connection with these discs should be promptly brought to the attention of the Army through your usual liaison channels.

Dear [Redacted]

Your letter dated July 17, 1947, together with enclosures, has been received and I want to thank you for submitting the letter you mentioned to me.

Sincerely yours,

John Edgar Hoover
Director
Mr. J. Edgar Hoover,
Washington, D.C.

Dear Mr. Hoover:

The enclosed came to my husband yesterday. After reading it aloud to the family, as a good example of crack-pot-ism, advertising or what have you, he threw it into the wastebasket. I retrieved it, thinking it might better go into your wastebasket than ours, examined by your department en route thither, as of possible value. I presume several thousand have been mailed, and you may receive numberless duplicates. I will risk that as an economist at Columbia University receives many strange missives. This is as strange a one as has come for some time, and very appropriate to the present moment.

Sincerely yours,

July 17, 1947
Home address: Westport, Conn.
July 11, 1947.

Dear Sir:

Have you seen one of the mysterious "Saucers"?

What did it look like?

Do you think these strange, celestial manifestations are harbingers of a better day?

Do you believe it means that a new and revolutionary advance is coming?

Will it make your life brighter, happier, more useful?

We believe one of these startling discs is on its way to you. Then the secret will be out.

SOUCY

HOLD
For the information of the Bureau this is to advise that on July 7, 1947, Stamford, Connecticut, appeared at the Stamford Resident Agent's office and furnished the following information:

Prefaced his remarks by stating that he is a scientist by occupation and is currently employed at the American Cyanamid Research Laboratories on West Main Street in Stamford, Connecticut, in the Physics Division. Further indicated that during the war he was employed at MIT, Cambridge, Massachusetts, in the Radiation Laboratory which Laboratory is connected with the Manhattan Project. Advised that he is thirty years of age and is a graduate of the University of Arizona.

Stated that the topic of "flying saucers" had caused considerable comment and concern to the present day scientists and indicated that he himself had a personal theory concerning the "flying saucers." Prior to advancing his own theory, remarked that immediately after the conclusion of World War II, a friend of his, allegedly observed the "flying saucers" from an observatory in Milan and Bologna, Italy. He stated that apparently at that time the "flying saucers" had caused a little comment in Italy but that after some little publicity they immediately died out as public interest. Stated that it is quite possible that actually the "flying saucers" could be radio controlled germ bombs or atom bombs which are circling the orbit of the earth and which could be controlled by radio and directed to land on any designated target at the specific desire of the agency or country operating the bombs. He stated that one of the items of interest which he personally has observed is the fact that the saucers have been observed in Mexico City, New Orleans, Philadelphia, New York, Boston, Halifax, Newfoundland, Paris, Milan, Bologna and Yugoslavia as well as Albania. By placing a string around the globe of the earth it

2-22 PM OK, FEI WA. NY.
TO : Director, FBI
FROM : SAC, Butte
SUBJECT : FLYING DISCS

Mr., member of the Idaho Daily Statesman, Boise, Idaho, telephonically contacted the Butte Office and asked if the FBI was checking on the flying discs reported to have been seen by many citizens. He advised that so many had reported having seen them that it undoubtedly was not a figment of the imagination. He said that these discs had been seen on July 1, 1947, in the vicinity of Trail Creek near Sun Valley, Idaho, by reputable citizens.

The writer informed that this office was not making an investigation and inquired as to whether he had contacted Army and Navy officials. He said that he was inquiring of these agencies.
On the evening of July 9, 1947, a report was received at the Los Angeles Office that a so-called "flying disc" had landed in the vicinity of Radford and Magnolia Streets in North Hollywood, California, the contraption being briefly described as approximately 30 inches in diameter, all metal, disc shaped, and having a radio antenna. It was reported to have burst into flames upon landing. At the time of the report the disc was being held at the Valley Fire Department in Van Nuys, California.

The device is briefly described as consisting of two convex steel discs approximately 2 feet in diameter, fused together at the outer edge and fastened together in the center by a hollow cylindrical connection. A vertical galvanized iron fin was screwed to the top of the disc, and a short length of pipe closed at one end ran from the outer circumference into the interior of the contraption. What appeared to be a radio tube was installed in the center of the top side. The contraption had a total weight of approximately 20 pounds.

At the Bureau Office a series of photographs were taken of the device from various positions, and a set of these photographs are being forwarded herewith for the Bureau's inspection and information.

The "flying disc" was thereafter turned over to Major A.C., G-2, Fort MacArthur, San Pedro, California, who subsequently reported that the object was definitely a hoax and under no circumstances could have flown under its own power.
On the following day, July 10, 1947, one North Hollywood, reported that on this morning he was at the North Hollywood Service Station eating at which time there was considerable talk about the flying disc having been found in the vicinity. A number of what appeared to be young high school students were present and were having quite a laugh about the excitement caused by the finding of the disc. Stated that he received a definite impression that these young students either had themselves or knew of someone who had been working for the past two weeks making this "flying disc". Was unable to furnish the names of any of these young men but identified one of them who was making the statements as being employed in a Chevron Service Station at the corner of Victory Boulevard and Whitsett Street. He described the youngster as about sixteen years of age.

The above information was also furnished to the G-2 Office at San Pedro, California.
TO: MR. LADD
FROM: [Redacted]

SUBJECT: FLYING SAUCERS (DISCS) INFORMATION CONCERNING

At 11:45 AM this date, SAC Hood telephonically contacted the Bureau and advised at approximately 11:30 PM, July 9, 1947, the office in Los Angeles had received information from the Resident Agent at Burbank, California, that a "flying disc" had landed in or near Burbank and had been seen to burst into flame when it landed. Further, that it had been the cause of a fire in some woods, this fire either in Burbank or possibly in the city limits of Los Angeles, which Mr. Hood could not be certain. The fire chief at Burbank had called the resident agent at Burbank and told him he would hold the disc for him.

Coincident with the information received from Burbank, the Los Angeles Office received calls from the newspapers requesting information. The newspapers stating they had called the Army Air Force Intelligence who had stated "we are not interested". According to Mr. Hood, this comment had aroused the newspapers and they stated they intended to publish this quotation and deline same in their first issues. Mr. Hood stated that he had refrained from making any statement to the press other than to admit possession of an object and that it was being turned over to military authorities in the morning (this AM), it being Mr. Hood's opinion that he did not want any quotes in the press and certainly not one to the effect that we were not interested.

As described to him, Mr. Hood stated that the object was an aluminum disc about 2' in diameter weighing about ten pounds, painted with aluminum paint, and having some sort of a radio tube in the center of the disc. This object was in possession of the resident agent at Burbank and would be turned over to military authorities (G-2) in Los Angeles this morning.

RECORDED

Mr. Hood's purpose in calling was to place the Bureau on notice regarding the above described object and any further information would be transmitted to the Bureau at once.

Action: None indicated.
July 15, 1947

Chicago, Illinois

Ex. 43

I wish to acknowledge receipt of your letter postmarked July 7, 1947. The information contained therein has been carefully reviewed and is being made a matter of permanent record in the files of this Bureau. Your interest in writing as you did is indeed appreciated.

In the future should you have information which you feel might be of interest to this Bureau you might find it convenient to contact the Special Agent in Charge of our Chicago Office, which is located at 1900 Bankers' Building, Chicago 3, Illinois.

Sincerely yours,

John Edgar Hoover
Director

Doesn't it seem wisest for you to forbid papers - (No not forbid - but ask the co-operation of all papers) to keep all news of those discs out of the news until you are sure just what they are & where from.

Seems to us with all the enemies we have, even within our borders, it could be something far more important than may seem at first. I had 2 sons in this war & another who over-did for his America - & we do want it really protected from danger from now on. Enough are dead & maimed - without losing out now as it easily could be. Why have the papers carried that story if reporters were made to see how much more sensible not to report - it except to the F.B.I.

There is too much of danger ahead anyway —
